

Information available from Ugthorpe & Hutton Mulgrave Parish Council under the model publication scheme Published May 2022 Updated May 2025

This guidance gives examples of the kinds of information that the Parish Council provides in order to meet their commitments under the model publication scheme. It is expected to make the information in this definition document available unless:

- it does not hold the information;
- the information is exempt under one of the FOIA exemptions or Environmental Information Regulations exceptions, or its release is prohibited by another statute ie GDPR;
- the information is readily and publicly available from an external website; such information may have been provided by the public authority or on its behalf.
- the information is archived, out of date or otherwise inaccessible; or,
- it would be impractical or resource-intensive to prepare the material for routine release

The guidance is not meant to give an exhaustive list of everything that should be covered by a publication scheme. The legal commitment is to the model publication scheme, and it is an aim to provide as much information as possible on a routine basis.

Publishing datasets for re-use

Public authorities must publish under their publication scheme any dataset they hold that has been requested, together with any updated versions, unless they are satisfied that it is not appropriate to do so. So far as reasonably practicable, they must publish it in an electronic form that is capable of re-use.

If the dataset or any part of it is a relevant copyright work and the public authority is the only owner, the public authority must make it available for re-use under the terms of a specified licence. Datasets in which the Crown owns the copyright or the database rights are not relevant copyright works.

The Datasets Code of Practice recommends that public authorities make datasets available for re-use under the [Open Government Licence](#).

The term 'dataset' is defined in section 11(5) of FOIA. The terms 'relevant copyright work' and 'specified licence' are defined in section 19(8) of FOIA. The ICO has published guidance on the dataset provisions in FOIA. This explains what is meant by "not appropriate" and "capable of re-use".

Note:

- Where possible the council will provide information without charge in electronic format
- For items that need to be printed and posted and a charge needs to be levied we will inform the applicant and any payment will need to be made before information is provided. Items which are potentially chargeable are indicated below and costs detailed in the Schedule of Charges at the end of the document
- Documents to be viewed in hardcopy need an appointment with the Parish Clerk and the venue will be agreed upon
- Contact details are at the bottom of the Guide

Information to be published	How the information can be obtained	Cost
